PLUSHIES

SHOW YOUR MOOD WITHOUT SAYING A WORD!

The plushies you know and love just got a lot bigger!

Have you ever tried to find a plush toy with a frown on its face? It's a lot harder than you'd think! From a young age, we're taught to smile and tell everyone that we're fine. But not everything is sunshine and rainbows, and we wanted to create a healthy (and adorable) way for kids and adults alike to express negative emotions. So we developed a cute and cuddly toy that's fun to flip, fidget with, and squish. To our delight, those plushies took social media by storm. Now, we've taken the Original Reversible Plushies you know and love and supersized them. Feel empowered to tackle BIG emotions with the Big Reversible Octopus Plushie, which is twice as tall as the Original Reversible Plushies!
